

Pooling your experience will help us to ask for better conditions and improvements of the environment. We are here to assist you. Our aim is to encourage migrants and facilitate their opportunities in non-bureaucratic and decent surviving by learning in a friendly way about the Slovak language, country, its history, institutions, socio-economic and culture aspects of life and citizens' values.

Our ambition is to get you closer to the local society by telling Slovaks more about your culture and country you are coming from. Our common meeting point will be www.migration.sk
